Kalos Health Gold Plus

Introduction

This directory provides a list of Kalos Health Gold Plus network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You will have to choose one of our network providers listed in this directory to be your **PPrimary CCare Provider (PCP)**. Generally, you must get your health care services from your PCP.

Your primary care provider is the doctor or other provider you see first for most health problems. He or she makes sure you get the care you need to keep you healthy. The PCP's role is to provide preventative care, teach healthy lifestyle choices, identify and treat common medical conditions, direct you to the best place for care, and he or she also may talk with other doctors and health care providers about your care and refer you to them. In many Medicare health plans, you must see your primary care provider before you see any other health care provider. Providers that may serve as a PCP include: General Practice, Family Practice, Internal Medicine, Geriatrics, Physician Assistants and Nurse Practitioners.

Your PCP will coordinate covered services and direct you to specialists, generally called a "referral." Some services performed by your PCP may require pre-authorization by the plan. It is the responsibility of the PCP to request and obtain authorization when necessary.

The network providers listed in this directory have agreed to provide you with your health care services and specialty needs. You may go to any of our network providers listed in this directory; however, some services may require a referral from your PCP.

Out-of-network providers are under no obligation to treat Kalos Health Gold Plus enrollees, except in emergencies. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service. Please call our Member Service Department at 1-800-399-1954, Monday through Friday from 8:00am to 8:00pm. TTY users should call 711. You may also refer to your Evidence of Coverage for more information, including the cost sharing that applies to out-of-network services.

If any out-of-network providers submit a bill directly to you (the enrollee), you should **not** pay the bill but should submit it to Kalos Health Gold Plus for processing and determination of liability to you, if any.

You may get covered emergency medical care whenever you need it, anywhere in the United States or its territories. Our plan covers ambulance services in situations where getting to the emergency room in any other way could endanger your health.

Kalos Health Gold Plus

If you have an emergency, we will talk with the doctors who are giving you emergency care to help manage and follow up on your care. The doctors who are giving you emergency care will decide when your condition is stable and the medical emergency is over. After the emergency is over you are entitled to follow-up care to be sure your condition continues to be stable. Your follow-up care will be covered by our plan. If your emergency care is provided by out-of-network providers, we will try to arrange for network providers to take over your care as soon as your medical condition and the circumstances allow

When you are outside the service area and cannot get care from a network provider, our plan will cover urgently needed services that you get from any provider.

Our plan does not cover urgently needed services or any other services if you receive the care outside of the United States.

You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor Kalos Health Gold Plus will be responsible for the costs.
