

Managed Long Term Care

RN Care Manager

Job Posting

The Care Manager coordinates the care and service of selected member populations across the continuum of illness. They will serve to promote effective utilization and monitor health care resources within their group of members throughout Erie and Niagara County.

Key Responsibilities:

- Complete a comprehensive assessment and develop a care plan for short-term & long-term needs utilizing clinical expertise.
- Manages a mean of 75-120 active cases based on case intensity and acuity.
- Provides training and guidance to new Care Managers regarding policy & procedure, systemic tools, workload and care plan development.
- Interacts continuously with member, family, physician(s), other providers and the Kalos interdisciplinary team.
- Assesses the options for care including use of benefits and community resources to meet member's needs reflective in the plan of care.
- Acts as liaison and member advocate between the member/family, physician and facilities/agencies.
- Maintains accurate records of case management activities in the electronic health record using clinical guidelines.
- Coordinates community resources with emphasis on medical, behavioral and social services.

Qualifications/Requirements:

- Current NY State RN licensure. CCM certification preferred.
- 5+ years of clinical experience, preferably in home health, physician's office or public health.
- 2 years current case management or managed care experience preferred.
- Experience and knowledge with electronic health record software preferred.
- Bilingual skills a plus but not required.
